

*It is important for the entire home to be well lit so dark areas will not frighten a person with Alzheimer's disease. The person may not realize how to turn around and come back after walking into a dark area or might become disoriented when waking up in darkness.*

### SWITCH COVERS

by The Alzheimer's Store  
**\$5–\$10**

The Switch Cover is an easy-to-install, inexpensive cover that hides a switch, making it less likely that your loved one will discover it and turn it on (or off). It comes with two extension screws that simply replace the ones on your switch plate. Then all that is necessary is to snap the cover in place—out of sight, out of mind. Comes in packets of four sets.

Available from The Alzheimer's Store.

### NIGHTLIGHT

by GE  
**\$3–\$5**

This nightlight is designed to turn on at dusk and off at dawn automatically.

Available at Walgreens and other stores

## FLASHLIGHTS

### **Rechargeable Double-Duty Flashlight with Nightlight** by Eveready **\$10–\$15**

This double-duty value flashlight with nightlight charges whenever the light is plugged in.

- Designed with a fold-out plug that uses only one outlet
- A red light indicates when light is fully charged
- Nightlight feature allows the flashlight to be found if there is a power failure
- Comes with two-year limited warranty

Available at Office Depot and other stores.

## Heavy Duty Flashlight

by Homecenter

**\$3-\$5**

This heavy-duty flashlight is convenient for your loved one if the power goes out.

- Designed with a rubberized grip and nylon carry strap
- Uses 3 D batteries

Available at Walgreens and other stores.
